

What's Your Opinion?

1. Homeowners should be required to mow or trim their lawns in the early morning or late afternoon.
2. School busses should be equipped to use clean fuel (biodiesel, propane, natural gas) to reduce tailpipe emissions.
3. Drivers should fill their gas tanks early in the morning or late in the day.
4. Providing earphone jacks for television and/or music videos would increase the number of citizens using mass transit (light rail, busses).
5. Ground level ozone (when heat and sunlight react with air pollutants like car exhaust) concentrations are affecting our local health.
6. Factories are doing their best to prevent air pollution in this country.
7. More people should use alternative transportation (bikes, train, walking) to get to school and work.
8. Planting more trees in the city area will reduce air pollution.
9. Large trucks should be required to use electrical sources at travel plazas to reduce idling time (the engine is running although the truck is not moving).
10. New homes should be equipped with energy-efficient appliances.
